Attention to the fact that neither the national air of America nor the national airs of our allied countries should be played as part of a medley is called by John K. Kollock, executive secretary of the State Council of Defense. The same rule applies to the Marseillaise and to the national anthems of other allies.

## Shoots Mountain Lion in Den.

L. J. Goldman, predatory animal inspector for the Idaho district of the biological survey, with offices here has just received an unusual report from one of his hunters at Mackay, Idaho, an 18-year-old lad named Earl Bascom. The young man came upon a mountain lion one day last month and shot at it. He trailed it all the following day without success and the third day took up the chase again and traced the animal to its den, which he crawled into and killed the animal at close range. The lion was fullgrown and is of the variety for which a bounty of \$25 is ordinarily paid in Idaho, although Bascom is working for the government and will not get the bounty. The skin will be sent to Mr. Goldman here, who will later send it to Washington, D. C.
